

IIB DEVELOPMENT GROUP, USA

OVERVIEW

IIB Development Group (IIB-DG) is a consortium of US based companies specializing in financing and infrastructure development. As a Team, IIB-DG is able to provide your country with all revolutionary and affordable solutions in road infrastructure using natural resources, housing construction and energy & power generation projects.

In line with its mandate of supporting socio-economic development worldwide, IIB-DG provides financial resources to assist countries in addressing the challenges they face, achieving sustainable development and elevating living standards.

IIB-DG also invests in select companies in developing countries to boost economic growth and drive the creation of job opportunities, thereby accelerating sustainable development.

APPLICATION PROCESS

Review of Application Documents

1

Preliminary Evaluation

IIB-DG shall review the request, and evaluate the technical and economic feasibility of the project. If the application meets the Fund's requirements, a memorandum shall be submitted to the Board of Directors for preliminary approval of the funding.

2

Field Assessment

• On receiving preliminary approval from the Board of Directors, the Fund will dispatch a delegation to the country to carry out field assessment, to evaluate the project, study the economic conditions, verify the soundness of the feasibility study, validate the cost estimate and ensure that the project addresses one of the country's development priorities. The assessment will also include appraising the ability of the country to administer, execute, operate and sustain the project.

• IIB-DG may accept a project evaluation report prepared by other development institution contributing to the funding.

3

Funding Approval

• Upon completion of the field assessment report, the delegation will submit a recommendation to the Board of Directors for final approval on funding.

• After obtaining the final approval from the Board of Directors, IIB-DG will notify the beneficiary country and begin the project implementation process.
